DISCLAIMER

We Investing in securities including equities and derivatives involves certain risks and considerations associated generally with making investments in securities. The value of the portfolio investments may be affected generally by factors affecting financial markets, such as price and volume, volatility in interest rates, currency exchange rates, changes in regulatory and administrative policies of the Government or any other appropriate authority (including tax laws) or other political and economic developments. Consequently, there can be no assurance that the objective of the Portfolio would achieve. The value of the portfolios may fluctuate and can go up or down. Prospective investors are advised to carefully review the Disclosure Document, Client Agreement, and other related documents carefully and in its entirety and consult their legal, tax and financial advisors to determine possible legal, tax and financial or any other consequences of investing under this Portfolio, before making an investment decision. The composition of the portfolio is subject to changes within the provisions of the disclosure document. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of investments in portfolios. Different segments of the Indian financial markets have different settlement periods, and such periods may be extended significantly by unforeseen circumstances. The inability of the Portfolio Manager to make intended securities purchases due to settlement problems could cause the portfolio to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the portfolio due to the absence of a well - developed and liquid secondary market for debt securities would result, at times, in potential losses to the portfolio. Individual returns of Clients for a particular portfolio type may vary significantly from the data on performance of the portfolios depicted in this material. This is due to factors such as timing of entry and exit, timing of additional flows and redemptions, individual client mandates, specific portfolio construction characteristics or structural parameters, which may have a bearing on individual portfolio performance. No claims may be made or entertained for any variances between the performance depictions and individual portfolio performance. Neither the Portfolio Manager nor Right Horizons Portfolio Management Pvt Ltd (RHPMS), its Directors, Employees or Sponsors shall be in any way liable for any variations noticed in the returns of individual portfolios. The Client shall not make any claim against the Portfolio Manager against any losses (notional or real) or against any loss of opportunity for gain under various PMS Products, on account of or arising out of such circumstance/ change in market condition or for any other reason which may specifically affect a particular sector or security, including but not limited to disruption/prohibition/ discontinuation/ suspension of trading in a particular Security including any index or scrip specific futures/ options or due to any act of Company, Market Intermediary by SEBI or any other regulatory authority which may result in trading in such security (ies) being completely or partially affected, to which the Portfolio Manager has taken exposure/ proposed to take exposure and is unable to take additional exposure/ restrain him from taking any position in a particular equity or related derivative instruments etc. due to any reason beyond the control of the Portfolio Manager resulting in unhedged positions or losses due to unwinding of certain positions or losses due to any reason or related to any of the aforesaid circumstances. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated. Prospective investor(s) should before dealing and /or transacting in any of the products make their own investigation, seek appropriate professional advice and shall be fully responsible/are liable for any decision taken.

Financial products and instruments are subject to market risks and yields may fluctuate depending on various factors affecting capital/debt markets. There is no assurance or guarantee that the objectives of the portfolio will be achieved. Please note that past performance of the financial products, instruments and the portfolio does not necessarily indicate the future prospects and performance thereof. Such past performance may or may not be sustained in future. Portfolio Manager's investment decisions may not be always profitable, as actual market movements may be at variance with anticipated trends. The investors are not being offered any guaranteed or assured returns. The RHPMS may be engaged in buying/selling of such securities. Please refer to the Disclosure Document and Client Agreement for portfolio specific risk factors. In the preparation of this material the RHPMS has used information that is publicly available, including information developed in-house. Some of the material used herein may have been obtained from members/persons other than the RHPMS and/or its affiliates and which may have been made available to the RHPMS and/or to its affiliates.
